Summary

I am a dedicated IT student specializing in web development and web design, and I am passionate about creating user-friendly, visually appealing, and responsive websites. Currently pursuing studies in Information Technology, I enjoy combining creativity with technical skills to build engaging digital experiences. I'm eager to apply my knowledge in real-world projects, collaborate with innovative teams, and continue growing my front-end development and design skills.

Experience

Aug 2023 - Oct 2024

Students Training Assistant (STA)

University of Mindanao Tagum College (UMTC)

I work as a Non-Teaching Personnel's assistant, where I handle Administrative work like Scheduling, Data Entry, and accommodating clients. I've also handled a system for the office and maintained it.

Education

2021 - 2025

UNIVERSITY OF MINDANAO TAGUM COLLEGE

College / Undergraduate • Bachelor Of Science • Information Technology (IT)

I am a Bachelor of Science in Information Technology student from the University of Mindanao, Tagum College, Philippines (2021-2025). My academic journey has equipped me with a strong foundation in IT principles, and I am eager to apply my knowledge and skills to contribute to innovative projects and collaborative environments.

Certification

Developing Designs for User Interface

Certification in designing user-friendly digital interfaces, covering visual design principles, usability, accessibility, and prototyping. Focuses on creating effective, responsive, and aesthetically pleasing UI aligned with modern UX standards.

Virtual Assistant Training

Comprehensive training covering key virtual assistant roles, including appointment setting, social media management, and administrative support. Focused on developing skills in communication, organization, task management, and the use of digital tools to support clients remotely.

Projects

Request Management System

📅 Nov 2024 – Feb 2025

A web-based platform designed for government use to manage and streamline user requests for chicks. It enables user registration, request submission, status tracking, and distribution management, improving efficiency in farm support programs.

Radiant Reception Booking System (Landing Page)

📅 Sep 2025 – Oct 2024

A visually engaging landing page designed to promote and facilitate bookings for reception events. It highlights key services, showcases venue details, and provides an easy-to-use interface for users to make inquiries or reserve dates.
